Museum Villa Vauban

1st Prize TECU Architecture Award 2010

The renovated and extended Luxembourg City Art Museum Villa Vauban obtains the triennial award for exemplary and innovative use of metal facades. The translucent red brass facade with its alternating gold, red and brown shades is obtuse-angled and reflects the sunlight and the shadows of the trees. The characteristic patterning of the perforated material, which envelops the polygonal architectural body like a geometrical curtain, is continued on the roof.

This year's jury consisted of the following members:
Prof. Carlo Baumschlager, Fabio Capanni, Rachel Sayers, Isidore Zielonka.

The prize ceremony is scheduled on 18 January 2011 on the BAU 2011 in Munich.

Nomination Mies van der Rohe Award 2011

Moreover the new museum building was nominated for the Mies van der Rohe Award 2011. The biannual European award for contemporary architecture is an initiative by the European Union and the Fundació Mies van der Rohe, Barcelona.

Luxembourg, 22.11.2010
